

## Team Involvement in Demonstration

|                      |                                                                    |
|----------------------|--------------------------------------------------------------------|
| <b>Date</b>          | 29 June 2026                                                       |
| <b>Team ID</b>       |                                                                    |
| <b>Project Name</b>  | A Comprehensive Measure of Well-Being (HDI Prediction using AI/ML) |
| <b>Maximum Marks</b> | 1 Mark                                                             |

### Team Involvement in Demonstration:

This document records the active participation and roles of each team member during the project demonstration. It ensures that every member contributes meaningfully to the presentation and that responsibilities are distributed fairly and clearly.

| S. No | Team Member Name                       | Role in Demo          | Section Presented                                                             | Contribution Summary                                                                                                                     | Participation |
|-------|----------------------------------------|-----------------------|-------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------|---------------|
| 1     | <b>Spandhana Mondam</b>                | Team Lead / Presenter | Introduction, Problem Statement, Solution Overview, Notebook Walkthrough, Q&A | Led the entire demo, explained the ML pipeline, Flask backend, and dashboard planning. Coordinated the overall flow between team members | <b>Active</b> |
| 2     | <b>Bhagyalatha Kadali</b>              | Live Demo Presenter   | HDI Prediction Demo, Flask Backend, Code Walkthrough                          | Demonstrated the live prediction flow using sample inputs and walked through the Flask app.py routes and model loading                   | <b>Active</b> |
| 3     | <b>Pechetti Lilly Lakshmi Puja Sri</b> | Live Demo Presenter   | Dashboard Demonstration                                                       | Showcased the HDI Comparison, World Map, and Trend dashboards, explaining each Chart.js visualization to the evaluator                   | <b>Active</b> |
| 4     | <b>Balla Kamala Anjali</b>             | Supporting Member     | Data Links & Pre-requisites Overview                                          | Contributed during the project planning and pre-requisites phase; supported the team during demo preparation and rehearsal               | <b>Active</b> |
| 5     | <b>Gara Bhandhavi</b>                  | Supporting Member     | Project Workflow Overview                                                     | Contributed during the project workflow documentation phase; supported team during demo preparation and rehearsal                        | <b>Active</b> |
| 6     |                                        |                       |                                                                               |                                                                                                                                          |               |

**Team Coordination Notes:**

|                                               |                                                                                                                                                      |
|-----------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Team Leader / Coordinator</b>              | Spandhana Mondam                                                                                                                                     |
| <b>Overall Team Coordination Rating (1-5)</b> | 4                                                                                                                                                    |
| <b>Any issues during demo</b>                 | Minor delay in dashboard chart loading was observed when switching between sections during a trial run                                               |
| <b>How issues were resolved</b>               | The team pre-loaded the Dashboard page in a separate browser tab before the demo started, ensuring smooth transitions during the actual presentation |
